🐦 @junik1337

A Front-End Developer with entry-level experience specializing in web development, user interface design, HTML, CSS, NextJS and Tailwind. Adept at identifying opportunities to enhance front-end design and improve the user experience.

ACADEMIC EXPERIENCE

Web Development Project

From October 2023 to December 2023 1337 Khouribga, Morocco

- Designed and built a website of an online pong game coordinating with a team of students. We used Typescript, HTML, CSS and Nextjs which include developing pages, coding, and debugging.
- Created an online quiz game in ReactJS to test users in musical theory, which include designing the user interface and testing functionality.

System Administration Project

From August 2023 to September 2023 1337 khouribga, Morocco

- This project was centered on expanding my system administration knowledge through Docker.
- I successfully virtualized a comprehensive infrastructure within a personal virtual machine, encompassing multiple Docker containers each dedicated to a specific service.
- This setup was meticulously crafted to ensure optimal performance and security.

Software Development Pool

From March 2023 to April 2023 1337 Khouribga, Morocco

- Mastered C++ syntax and core programming concepts, laying a solid foundation for future software development projects.
- Developed proficiency in OOP principles such as encapsulation, inheritance, and polymorphism, applying these concepts to build robust and maintainable code.
- Implemented various data structures and algorithms, enhancing my problem-solving skills and understanding of computational efficiency.
- Completed projects emphasizing design patterns and best practices in C++, showcasing my ability to write clean, efficient, and scalable code.

EDUCATION

Information Technology Architecture

Since November 2021 1337 Coding School Khouribga, Morocco

Advanced Technician's Certificat

From September 2018 to October 2020

Brevet de Technicien Supérieur Settati, Morocco

CERTIFICATIONS

Responsive Web Design

June 2023 FreeCodeCamp 1337 Coding School
